W. Virginia Election Tuesday

Humphrey, Kennedy End Bitter Campaign

CHARLESTON, W.Va. (AP)—Sens. John F. Kennedy (D-Mass.) and Hubert H. Humphrey (D-Minn.) today wind up the bitterest presidential campaign of this young election year.

Some 670,000 registered Democrats will have much to say Tuesday about the political future of both.

Sunday night Kennedy openly discussed what probably is the biggest single factor in their vigorous, month-long contest: his Roman Catholic religion.

He told a television audience: "I have not been able to con-

vince, apparently, the people that I have the same convictions they do: The belief in the Constitution, and the separation of church and state."

"If any Pope attempted to influence me as president," he added, "I would tell him it was completely improper."

4.9 Per Cent Catholics

West Virginia has 4.9 per cent Catholics. The rest can be considered Protestants, even though only 28 per cent have formal church ties.

This is the first time a Catholic has been entered in a presidential

primary in West Virginia since 1928. Alfred E. Smith of New York won handily in the spring over Sen. James A. Reed of Missouri, but lost the state to Herbert Hoover in the general election by more than 100,000 votes.

None of the principals that year campaigned in the state. Humphrey is a Congregationalist. He attended Methodist services Sunday.

Humphrey was spending his final hours stressing his modest background as compared with

Leetonia St. Patrick School Dedicated

Bishop Among 400 Attending Event Sunday

Four hundred persons attended dedication service for the new addition to St. Patrick's School in Leetonia Sunday evening at the school.

Most Excellent Bishop Emmett Walsh of Youngstown gave the principal address, and Frank Litino, president of St. Patrick's Men's Club, served as master of ceremonies.

The Rev. Fr. William Maxwell of St. Brennan's Church, Youngstown, gave the invocation, and the Rev. Fr. William Fitzgerald of St. Joan of Arc Church of Canton gave the benediction.

Mayer Ralph Kennedy of Leetonia welcomed the group, and Congressman Wayne L. Hays presented the school with an American flag, which had flown over the United States Capitol in Washington, D.C.

Other distinguished guests were John Fire, commander of the Department of Ohio Veterans of Foreign Wars; William Bowles of Weirton, W. Va., junior vice commander of Ohio Department VFW; and William Tepsic, past department commander of Pennsylvania.

The dedication with solemn benediction was attended by Father McNally of Lowellville, Father Lyons of Wellsville and Father Benedict Franzetta, assistant chancellor of the district.

The Rev. Fr. William Mund, pastor of St. Patrick's Church in Leetonia, and the Rev. Fr. Warren Braun, assistant pastor, were in charge of the event.

A dinner and dance followed. The modern classroom addition to St. Patrick's school includes four classrooms, a multi-purpose room and nurses first aid quarters and was built at a cost of \$165,000.

The Rev. Fr. Mund has been in charge of St. Patrick's parish for the last 18 years. The Rev. Braun has been assistant for four years.

U.S. Scientists Predict Muffled Atomic Blasts

New Monitoring Systems Needed To Detect Explosions

WASHINGTON (AP)—Muffled nuclear blasts with five times the punch of the first atomic bombs can be exploded underground without detection until new monitoring systems are developed, American scientists have predicted.

They said it probably will take several years to develop the new system.

The time estimate was made Sunday by the Joint Congressional Atomic Energy Committee in a summary based on testimony by physicists and other scientists during hearings last month. Among these testifying were Dr. Hans Bethe, Dr. Edward Teller, Dr. Harold Urey and Dr. Alvin C. Graves.

The summary was made public a day after President Eisenhower announced the United States would start a new series of underground nuclear tests, possibly before the end of this year. However, the congressional report was prepared some time before the White House announcement.

Eisenhower said the tests would be for peaceful purposes of atomic energy, including development of a detection system.

The United States has conducted no nuclear tests since the fall of 1950. Before that, only one U.S. underground shot had been touched off which could be used for detection estimates.

The congressional summary said "it seems that for the next several years and possibly thereafter there could be a race between improved means of concealing and muffling nuclear tests."

It also pointed out the great difficulty of determining the difference between underground nuclear blasts and natural earthquakes.

Among the scientists testifying were Dr. Hans Bethe, Dr. Edward Teller, Dr. Harold Urey and Dr. Alvin C. Graves.

Fields Faces 15 Months At Milan Prison

Alton C. Fields, 36, of 781 E. Fifth St., former cashier at the Farmers National Bank who had been indicted by the federal grand jury for embezzlement of \$33,000 in bank funds, will spend the next 15 months in the Federal Correctional Institution at Milan, Mich.

Fields, who was sentenced Friday at Cleveland by Federal Judge Charles J. McNamee, pleaded guilty after previously denying his guilt.

Fields is confined to the Cuyahoga County jail at Cleveland but will be taken to Milan "within the next few days," court attaches said this morning.

The embezzlement was discovered last February at the Farmers bank where Fields had been employed since 1946, the last three years as an assistant cashier.

The government charged that Fields with held payments which customers made on Federal Housing Administration loans.

Fields, a Purple Heart veteran of World War II, is married and the father of four children.

Fields told the court he just spent the money he is accused of taking. None of it was recovered. "Keeping up with his neighbors" was cited by his attorney as the reason he took the funds. He was paid \$525 a month by the bank.

Ike Will Ask End to Secrecy Feels 'Iron Curtain' Causes War Fear

WASHINGTON (AP)—President Eisenhower reportedly plans to follow up the U. S.-Soviet spy-plane row by calling on Premier Nikita Khrushchev at next week's summit conference to join in scrapping military secrecy.

While top administration officials privately deplored the way in which the whole fantastic episode has developed, they ruled out any inclination toward a defensive approach by the President or his advisers at the Paris summit meeting.

The President is represented as feeling rather that the sensational incident dramatizes a possibly nothing else could the U. S. view that the Soviet Union's "iron curtain" system of concealment is a major source of tension and fear of war throughout the Free World.

Ike, Herter Confer

Eisenhower conferred with Secretary of State Christian A. Herter at the White House late Sunday for 75 minutes after he returned from a weekend at Gettysburg, Pa. Herter is just back from Allied conferences in the Middle East, and it was their first meeting in 10 days.

(The New York Times said in a Washington dispatch today that it was stated on responsible authority that President Eisenhower has ordered a halt to all flights over or near Communist frontiers pending an executive investigation of the entire intelligence apparatus of the government.)

Eisenhower is due to leave Saturday for Paris and the summit conference opening next Monday.

In advance of the Big Four session with Khrushchev, he will confer with Prime Minister Harold Macmillan of Britain and French President Charles de Gaulle.

The key question now in the pre-summit speculation of official Washington was how Khrushchev would react to the U. S. admission. The State Department officially acknowledged Saturday that a high-flying American jet aircraft had "probably" made an informa-

A 48-year-old Homeworth area woman was killed this morning when the car in which she was riding with her husband was involved in a three-car accident on Rt. 62, about three miles east of Alliance.

State Highway Patrolmen said the victim, Mrs. Alberta Fogarascher, RD 1, Homeworth, was reported dead on arrival at Alliance City Hospital shortly after the accident which occurred at 7:05 a.m.

The State Patrol said the accident happened when Ernest J. Fogarascher, 48, the victim's husband, pulled out of Johnson Rd. onto Rt. 62.

Impact of the collision threw both Mr. and Mrs. Fogarascher from the car.

Train Sniper Is Hunted In Nashville Area

NASHVILLE, Tenn. (AP)—Jittery trainmen hope today for quick capture of a sniper who has poured rifle fire into Louisville and Nashville trains five times since last Thursday.

The latest shooting came early Sunday. W. R. Harris, a fireman, said a bullet ricocheted off the cab where he was working with three other men. An hour later, another bullet crashed through a window.

The only railroad man injured in the latest incidents was Carl Crabtree, a fireman from Louisville, Ky., who was cut by flying glass early Friday.

But in an apparently related shooting, Mike Johns, 36, was hit in the stomach Friday as he sat on the floor of a house trailer near the railroad yards. And on April 24, three L&N employees were cut by glass when a switch engine was sprayed with bullets.

Police have determined no apparent motive.

All the shots have been fired from the same general area—the yards just south of the city limits—with two exceptions. A bullet struck the cab of a Nashville Memphis train last Friday shortly after it pulled out of Union Station, and the caboose of the same train was hit when it returned Saturday.

Hagerty parried with a barrage of "no comment" replies almost all questions dealing with the shooting down of the plane by the Russians and admission by this country that it was on an espionage mission.

Hagerty did repeat a White House denial of a published report that Eisenhower had ordered a halt to all flights over or near Communist frontiers, ending investigation of the government's intelligence operations.

Rolling Mill Division to Use Offices by Fall

Offers Needed Space; Building Had Been Idle Several Years

The E. W. Bliss Company announced this morning the purchase of the former Salem office building of the American Radiator and Standard Sanitary Corporation.

The building on S. Ellsworth Ave. formerly housed the main office of the Salem operation of American Radiator's Youngstown Kitchens division and has been vacant for several years.

It will be used by Bliss as headquarters for its Rolling Mill division which is currently located in a smaller building in the same block.

Alterations To Be Made

According to George Perrault, Jr., vice president in charge of the Bliss Rolling Mill Division, movement of Bliss activities to the new building will begin as soon as certain minor alteration work can be accomplished and probably will be completed by fall.

The modern former Youngstown Kitchens division building consists of two floors and a basement with a combined total of 26,000 square feet. It is situated at 520 S. Ellsworth Ave. adjacent to the present Bliss office building.

It was built in 1932, is fully air conditioned and modern in all respects.

Mr. Perrault cited the inadequacy of the present building as the reason for the purchase. "Although our present building was expanded five years ago, it is still not large enough for the expanding requirements of the division," he said.

"In addition," he noted, "a major part of the structure is very old and would soon require extensive modernization or complete replacement."

Future plans for the present Bliss office building have not been announced.

Arrangements for the transaction were made through E. M. Stopenson, president of the Farmers National Bank. Purchase price was not disclosed.

Rain, Cold Hit Nation's Northeast

By The Associated Press

More rain and cold put a damp chill over the northeast part of the country today and temperatures dropped to unseasonal levels in most of the South.

Heaviest rainfall was in central Pennsylvania, with more than five inches in some areas and falls of three and four inches in several cities. Heavy rains also drenched Maryland, causing some flooding in western sections.

Rain fell over much of the upper Ohio Valley and Great Lakes region Sunday night but appeared diminishing. Snow fell over the weekend in parts of Wisconsin, Michigan, Montana and Idaho, measuring up to 12 inches in Ironwood, Mich.

The cold air dipped as far south as the southern tip of Florida. The 61-degree reading in Miami was near the record low for the date.

Temperatures were 12 to 18 degrees lower than Sunday morning from western New York southward through Pennsylvania and the coastal states to southern Florida. Readings were mostly in the 40s and 50s.

It was chilly in the upper Great Lakes, Illinois and Indiana and the extreme northern Rockies, with temperatures in the 30s.

City Water Pumpage, Income Is Reported

Feel U.S. Committed Classic Blunder

Plane Incident Strengthens Reds' Hand, Observers Think

LONDON (AP)—West European observers today considered that the downing of an American spy plane over the Soviet Union strengthens the hand of Premier Nikita Khrushchev and puts President Eisenhower in an embarrassing position for the Big Four

summit talks opening in Paris May 16.

While recognizing that both East and West engage in intelligence activities, many observers felt that the United States blundered in its timing.

"The most disturbing feature of the incident is how the Americans came to authorize a flight of this kind on the eve of the summit meeting," said the influential London Times.

"Whatever the reason, there ought now to be a stringent tightening up in the control and coordination of the Central Intelligence Agency's activities."

The conservative Paris newspaper Le Figaro said that "history offers few comparable examples of clumsiness." It said the incident gives Khrushchev "argument with which he can cover his intransigence if the adventure of the summit conference runs into difficulties."

Such a proposal was made Sunday at the windup of a two-day conference. McDonald, a principal target of the insurgents, receives a salary of \$50,000 a year.

Man Is Wounded by Cleveland Police

CLEVELAND (AP)—A 58-year-old unemployed Cleveland man was in critical condition today with wounds from three police bullets.

Police said three policemen went to the apartment of Robert Woodward to question him Sunday in the shooting of Henry Frederick, 22, who also was in critical condition.

One patrolman, finding Woodward had locked himself in his bathroom and was refusing to come out, kicked in the door. Woodward fired at the officer, Robert C. Kruty, 30, striking his earlobe.

Kruty dropped to the floor and emptied his revolver at Woodward. Three of Kruty's bullets hit the man in the abdomen and in the upper part of each leg. A barrage of 11 bullets included four from another patrolman's revolver and one from the third officer's shotgun.

The investigation began when Frederick told police he had been shot in the chest in the E. 15th St. apartment after he refused to play cards with a man he called "Bob."

An organizational meeting is scheduled for Friday afternoon. The new unit consists of the present County Board of Visitors, George Seederly of Columbiana, Miss Herriott and Probate Judge Louis Tobin.

Indications are that the board, providing the superintendent and matron give their permission, may make a study of the County Home program with the possibility of recommending that it be placed under the welfare department, an arrangement similar to that of Mahoning County.

Home Supt. Russell Phillips has made no official comment on the proposal.

Maintenance Routines Best Way to Save Repair Dollars

Your home is a machine for living—and, like any machine, it requires maintenance. It's obvious that holes in the roof need fixing unless you want to sit in a puddle. Much less evident but equally necessary is the task of giving your many mechanical servants regular maintenance. Minutes spent in minimal care pay off in dollars saved, over the years. The amount of maintenance needed is small, but it should be performed regularly. An oil can, a pair of pliers, a screwdriver, a file, and a wiping cloth are about all the tools and supplies you'll need.

erous. Wire is inexpensive, so play safe.

Check plugs to see if they fit securely. Make sure prongs are straight. Again, replace if they're in poor condition.

Plugs on appliances that are connected all the time—refrigerator, lamps, television, radio—should be checked and the prongs cleaned every few months. A file or emery cloth will remove the light coating of oxidation that forms.

Cords should be long enough so that there's no strain on them when plugged in.

Motor-driven appliances should be lubricated at regular intervals. Instructions that come with them will tell you where to lubricate, and how often. If noise and heat develop, you've waited too long.

Small appliance motors—mixer, sewing machine—need light oil applied very sparingly. Use an oil can that delivers lubricant in drops, or use a medicine dropper.

Don't overoil. This can be nearly as bad for the appliances as not enough lubrication.

Observe the motor as it runs. If it sparks and/or sounds rough, it may need new motor brushes. This is often the reason the vacuum cleaner starts to sputter.

MOTOR BRUSHES are pieces of carbon mounted on a spring. On most small appliances they can be found beneath a small, round, threaded bakelite cap. They're inexpensive, should be replaced when they begin to wear. Again, see instructions.

Check belts on the furnace blower and refrigerator fan. Replace if they're frayed or split. Check the tension. There should be a small amount of give when you press down on the belt.

If you get a squealing noise from the belt when the motor is running, it needs lubricating, too. Use a grease stick. Rub it over the belt lightly. This works for auto fan belts as well.

When was the last time you looked at your furnace thermostat? If it doesn't seem to be functioning smoothly, the contact points might need cleaning. Slide a piece of smooth, hard-finish paper between the points. Any further servicing should be left to a professional.

Contact points on the doorbell button need cleaning periodically.

Use emery cloth or a small file for this chore. Replace the button if it's worn or badly weathered.

Insulation Cool Cash in the Bank

Here's a bit of good advice for families planning to build or remodel a house:

Proper insulation installed during construction is money in the bank: if you ever decide to have the house air conditioned.

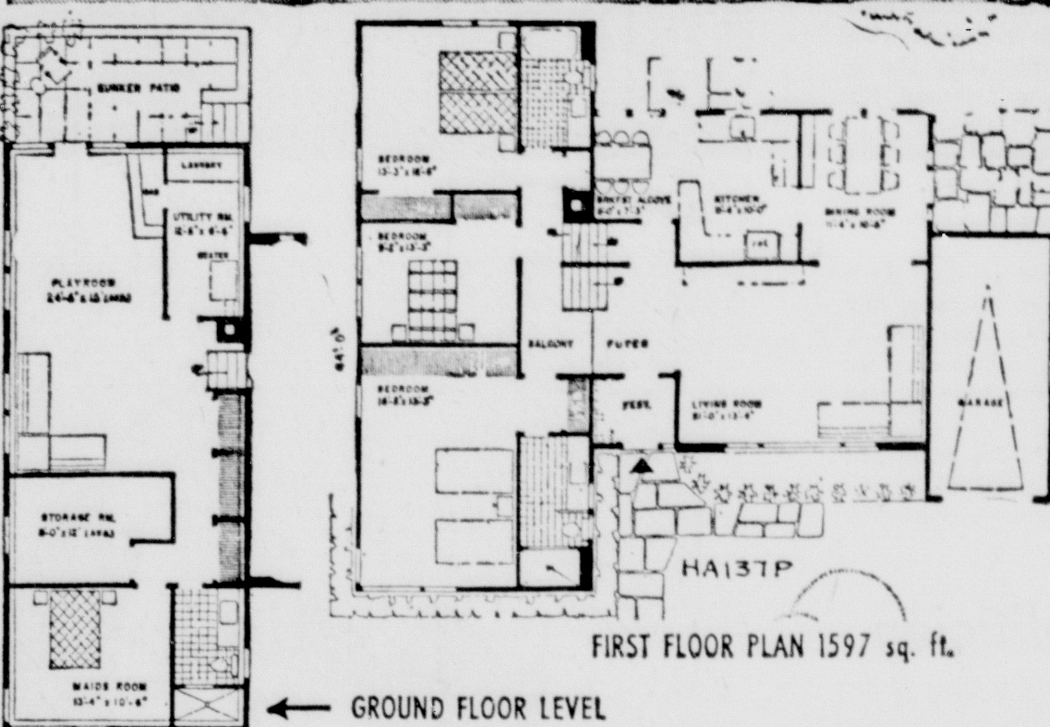

Will you ever have air conditioning? Chances are you will. In fact, it has been predicted by a number of authorities, including FHA Commissioner Julian H. Zimmerman, that within a few years a house without air conditioning will be as obsolete as a house without a bathroom would be today.

Proper insulation installed now will mean money saved on both equipment and operation later on when air condition is added to the house.

Adequate mineral wool insulation in walls, floors and ceilings makes it possible for a smaller, less expensive air-conditioning system to cool a house efficiently.

A larger unit, which would cost more to buy and operate, would be needed if no insulation was used or if inadequate insulation is installed. Mineral wool will start paying for itself immediately in savings on winter fuel bills. These savings, studies have shown, will more than cover the cost of insulation within a few years. This cost is not a big factor in any case, for it costs little if any more in time and labor to install adequate insulation than it does to do the job improperly.

If the house being remodeled or built is in an area where utility rates make electric heating practical, insulation is particularly important. Adequate amounts of mineral wool installed now will make it possible for home owners in these areas to convert to electric heat without re-insulating.

SPECIAL SPLIT — If a split-level is what you want, here's one to consider. This design features a well-arranged six rooms on the first floor and on the ground floor are a playroom, a fourth bedroom and bath. The sleeping wing is raised for seclusion and privacy. The kitchen, while compact, is designed for efficiency. The plan, counting 1,597 square feet of floor space, is HA 137P, and the architect is Samuel Paul, 89-51 164 St., Jamaica, N.Y.

Mobile Light Fixtures Sensible; Building Permits Installation Not Difficult

IT TAKES the American housewife a good while to adopt some of the newer features in the home. She fears the expense and she usually must sell her husband on the idea before she can make a radical departure from customary home decorating.

So it goes with mobile light fixtures which make a lot of sense in today's small homes and large families. The units give rooms a sleek, modern look, increasing the living space by eliminating floor clutter.

There is an opportunity to use mobile light fixtures wherever there is a table, chair or bed in the home. If a ceiling outlet isn't available, there are two solutions. Your electrician can add an outlet, sometimes involving a small amount of plastering or decorating. Or you may use a fixture that plugs into a wall outlet near the floor.

Home Repair Dos and Don'ts

DO, when a doorbell will not ring, start checking at the pushbutton, where the trouble almost always is.

DO... unscrew the button and see if the wires are connected properly to the terminal screws.

DO... if the connections are all right, place a screwdriver blade across the 2 terminals. If the bell rings, the pushbutton is at fault and needs replacing.

DO, when the "terminal test" fails to produce a ring, know that the trouble undoubtedly is with the power source, batteries or the transformer.

DON'T... in making any test of the transformer, "fool" with the wires leading to the fuse box.

DON'T... try to make any repairs to the pushbutton, although it is all right to sand the contact points lightly if they appear dirty.

DON'T... be afraid to work around the pushbutton without turning off the electricity, since the voltage is too low to be dangerous.

DON'T... forget that if all checks show neither the pushbutton nor the power source to be at fault, the wiring may be at fault, although this is the least likely cause of doorbell trouble.

Be sure to rinse several times—if you're doing a whole batch, turn the hose on them. Once the pots are rinsed well, line them up in the sun to air dry.

You may have termites

if you see "flying ants" near your home

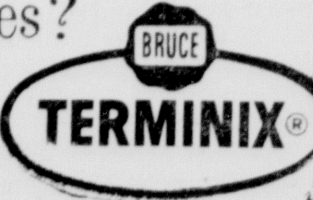

Phone for a Terminix inspection to avoid costly termite damage

Those so-called "flying ants" you see around your home in the Spring or Fall may be swarmer termites. They leave their ground nests to shed their wings and start new colonies. Swarmers are a sure warning but the worker termites remain hidden inside timbers, carpeting and woodwork in your home. Brick walls and concrete slabs will not stop these little destroyers. To avoid their costly damage, phone for a skilled inspection and reliable recommendations.

Terminix protects you up to \$5000 at low annual rates

Don't wait until termites attack your home and costly repairs are necessary! If termites are already in your home, Terminix will stop the attack and issue Insured Protection against future damage. Houses now free of termites—whether old, new or under construction—may be covered by a special low-cost protection plan. Terminix Service is guaranteed by E. L. ROCKET

Have your expenses shot up this year? Has inflation got you worried? Many people are concerned—among them 64 representatives of labor, education, government and business. They discussed this problem at the American Assembly not too long ago. Their conclusion: we can have dynamic growth with reasonably stable prices and low unemployment. But we can only accomplish this by working together, and working hard. For our success depends on a steady rise in productivity.

To gain a better understanding of how our system works—and your role in it—write today for the free booklet, "Prices, Growth and You", by American Assembly, Columbia University, New York 27, N.Y.

Published as a public service in cooperation with The Advertising Council and the Newspaper Advertising Executives Association.

THIS YEAR, THE SUMMER BRIDE will look like a Victorian noiseway, a fashionplate from Godey's Lady's Book or a princess. Bridal gowns were never prettier nor were they ever cut from more beautiful and lasting fabrics. This beautiful bride (left) has chosen a waltz length dress that's a mist of frosty white lace over pleated sheer nylon net. Lace bodice has tiny sleeves and scalloped bateau neck-

line. Photographed at the church on the big day (center) is this bride in a floor-length Victorian gown of sheer embroidered nylon. Tier after tier of the nylon fabric make a skirt that's like a bouquet. Heirloom lace in nylon (right) makes a formal wedding gown of great elegance. Neckline and tiny sleeves are outlined with an applique of small leaves. Gowns shown are of Chemstrand nylon.

Herbert Jones Is Elected By Teachers Association

The Salem Teachers Association elected Herbert Jones as president for the 1960-61 year when the group held its annual spring dinner meeting recently at Goshen Grange hall. There were approximately 100 in attendance.

Others elected for the ensuing year were: First Vice president, Kenyon French; second vice president, Jean Lieder; secretary, Sally Scullion; and treasurer, James Gow. Mary Doyle is retiring president.

Principal speaker for the evening was Dr. Gerald H. Read professor of comparative education at Kent State University. He recently returned from South America, and has traveled extensively in Europe, Japan, Korea and the Soviet Union.

In his talk entitled, "A Little Bull from the Pampas," he shared many of his travel experiences in a verbal world tour, relating many amusing anecdotes and strange customs which he encountered in his travels. He stressed the fact that there is a trend toward modernization in these countries today, and that old traditions are gradually making way for newer innovations.

The invocation was presented by Paul Rohrer, who also led the group in singing, accompanied by Mrs. Walter Hofmeister.

The program was arranged by Miss Thelma Thomas, program chairman, with Mrs. Vera Hauer and her social committee in charge of dinner arrangements.

Mother-Daughter Program Is Held At St. Paul School

Ladies Catholic Benevolent Association held its annual mother-daughter banquet recently at St. Paul School with 150 in attendance.

Miss Josephine Markovich, president of the association, presided and welcomed the guests, the Rev. Fr. J. Richard Gaffney and the Rev. Fr. William J. Witt. Father Gaffney spoke briefly to the group. Miss Nancy Horstman was crowned May Queen. Girls in her court were Dorothy Jean Scullion, Maureen Washili, Judy Whinnery, Susan isher, Katherine Harris, Mary Jean Smith, Margaret Ann Scheets and Mary Jo Scullion. Singing was accompanied by Rose-

to the William Scullion, James Fisher and Catherine McCloskey families, each having three generations of the membership represented at the banquet.

Announcement was made of the diocese convention of the National Council of Catholic Women to be held May 24 at St. Columbus Cathedral in Youngstown. Miss Markovich and Mrs. George McConner will serve as delegates from the local association.

Mrs. George Mitchell, Miss Rose McLaughlin and Mrs. McConner were appointed to the sunshine committee.

Games were enjoyed. A bridge prize was awarded to Mrs. James Fisher, and "500" awards were made to Mrs. Ralph Landwert and Mrs. Emil Bica.

The June 2 meeting will be in

the Knights of Columbus Hall, with Mrs. Louis Markovich, Mrs. Ralph Dumovic, Mrs. Carl Ziegler, Mrs. Julius Kovach, the Misses Irene and Margaret Kovach, Mrs. Thomas Scheets and Miss Markovich serving on the social committee.

108 Attend Dinner At Elkton Church

The annual mother-daughter banquet, sponsored by the Woman's Society of Christian Service of the Elkton Methodist Church, was held recently at the school with 108 in attendance. Mrs. William L. Brown of Lisbon gave the opening prayer.

Selections on the program included: "Welcome to Mothers," Debbie Blazer; "Origin of Mothers Day," Janice Moore; clarinet solo, Gloria Baker; reading, "No Occupation," Mrs. Harold Dixon; poem, "What Father Should Do for Mothers Day," Mrs. Leland Baker.

Pantomime of "Mother," song by Margaret Smith, assisted by Mrs. Ralph Apple and daughters, Theresa and Kim; puppet show, Ruth Henry and Vivian Reemer of Columbiana;

Group singing, led by Mrs. Helen Smith, with piano accompaniment by Mrs. Perry Baker; and speeches by Eileen Dixon, Linda Evans.

A carnation corsage was presented to Mrs. Ada George, 87, oldest mother present. Mrs. James McLaughlin of North Lima, youngest mother present, and Mrs. Hughie Evans of Elkton-Lisbon Road, who had six daughters present, also received corsages.

Mrs. Ralph Moore and Mrs. Harold Dixon comprised the dinner committee; Mrs. Lloyd Ward and Mrs. Earl Smith served on the program committee; and Mrs. John Armstrong headed the menu committee.

It was decided to have another mother-daughter banquet in May of 1961.

tion gathering flight over Soviet territory a week ago, but said the trip was not authorized from Washington. Khrushchev said the plane was shot down and the pilot captured alive and well. The formal statement also bluntly reported that for the past four years "planes of the type of unarmed civilian U2 aircraft have made flights along the frontiers of the Free World."

In the context of the entire statement, this meant simply that for four years these planes have been employed along the iron curtain of the Soviet Union to discover as much as possible of what was going on behind the wall of secrecy.

A part of the statement also denounced Soviet secrecy as a source of danger of surprise attack. It was prepared under Herter's direction and cleared with Eisenhower.

Allied officials in Western Europe were described in press dispatches as deeply concerned that the incident had damaged Eisenhower's position in summit negotiations. Some described the President's situation as very embarrassing.

Congressional reaction varied from grave concern to a so-called attitude, but most members were restrained in their comment. Some expressed the view that in the face of a ticklish situation, it's best for Congress to keep quiet.

The U.S. statement disavowed any personal responsibility of the President or any other Washington authority for the espionage mission. It said that an investigation ordered by the President showed that "insofar as the authorities in Washington are concerned there was no authorization for any such flight as described by Mr. Khrushchev."

Officials would not go beyond that in reporting what the inquiry had shown about who was responsible. The implication was that some lower official outside Washington ordered the flight.

Laying a basis for the line which Eisenhower is reported planning to take at the summit conference the statement denounced "excessive secrecy practiced by the Soviet Union in contrast to the Free World." It recalled that at the Geneva summit conference in 1955 Eisenhower proposed an "Open Skies" plan to Soviet leaders but they rejected it.

In his Open Skies plan Eisenhower called on the Soviet Union to join with the United States in exchanging blueprints of military establishments and opening up both countries—and any others willing to participate—to aerial inspection flights.

Matter of Fact

The next time someone tells you he is double-jointed you can laugh up your sleeve. No one is actually double-jointed—not even the circus contortionist. People who appear to be double-jointed are that way because the bones together are looser than average, either naturally or through practice.

Sixty-two years ago the first auto insurance policy was issued. The pioneer driver was a cautious doctor. In 1898, his car wasn't very fast but it made up in noise what it lacked in speed. So the driver was insured against possible damage suits brought by irate owners of runaway horses.

Three Motorists Pay Fines At E. Palestine

Three area residents were fined by Judge Earl Spalding of the Eastern County Court at East Palestine over the weekend for traffic violations.

James L. Jackson, 45, of Washingtonville, was fined \$10 for illegal passing.

Maynard C. Stanley, 26, of East Palestine paid a \$10 fine after being cited for having no muffler. Loretta Garey, 22, of RD 1, Rogers, was fined \$15 for driving left of center. Her fine resulted from an accident on Rt. 7 approximately a month ago in which she and a companion were seriously injured.

WOMEN TO MEET

FALLS FROM MOVING CAR

Mrs. Rosella Watt of Hopedale, Pa., was treated at City Hospital this morning for laceration of the nose and head suffered when she fell from a moving car at 4 a.m. today in Columbiana.

THE OPERATION of such ships by the Army's agency is in direct contradiction to a 1953 directive of the Department of Defense. "It is the policy of the Department of Defense not to engage in the operation of industrial or commercial facilities unless it can be demonstrated that it is necessary for the government itself to perform the required work or service."

The Hoover Commission reported in 1955 that, "there does not seem to be any compelling reason justifying the continued operation of the steamship line."

Thus, we have buried in the vast appropriations for defense a considerable amount devoted to a wholly unnecessary purpose. And this continues, despite the recommendation of the Hoover Commission, the explicitly stated policy of the Budget Bureau, and federal law itself.

Perhaps, since the Army built the Canal more than half a century ago, the Panama Canal Co. is regarded as sort of sacred cow. But with taxes what they are and requirements for necessities so high, there should be no room for the stabling of any sacred cows.

The Associated Newspapers

THE PANAMA LINE, whose service is 70 per cent commercial, is in direct competition with American private shipping companies which could provide the services with greater efficiency.

It has two combination freight and passenger vessels, the ANCON and CRISTOBAL. Both are 20 years old. While the Merchant Marine Act requires that ships of private companies be replaced in 20 years, the Panama Canal Co., claiming that it is not bound by any such nonsense, proposes to keep these ships and spend five million dollar of taxpayers' money to recondition them for service for another 10 years.

According to Maj. Gen. W. E. Potter, the head of the Panama Line, the ships "look a bit seedy."

The furniture needs reupholstering, the swimming pools must be renovated, the clubrooms air-conditioned, and the dishwashers replaced. The boiler systems, turbines, and generators need repairs and the electrical cables should be replaced.

Although they are still deemed seaworthy, this would seem like the prescription for scrapping. For with old ships, like old houses, rebuilding makes them look almost like new and costs only a little more.

The argument of the Panama Canal Co. is that the strategic Canal Zone needs its own supply facilities. But this is strange, since no other bastion of our defense, no matter how far-flung, enjoys its own shipping service.

There is an abundance of privately owned transport service on regularly scheduled runs between New York and the Canal Zone, the route of the government's line. Private capacity is ten times the requirements of the Panama Canal Co.

The Grace Line and the United Fruit Company, which have petitioned for discontinuance of the Panama Line, in 1958 alone paid \$2,600,000 in Canal tolls. They are paying for the deficits and re-equipping of their competitor.

HALF PUP, HALF BABY CARRIAGE — A San Antonio, Tex., veterinarian rigged cast and carriage for Yogi after an auto ran over his back legs, breaking them. He's doing all right.

U.S. Army Vessels Compete With Private Shipping Lines

The eternal laws of bureaucracy say that once a tax is levied, it is almost never repealed; once an incompetent is frozen into civil service, he is safe from all storms and once the government gets its teeth into a business, it never lets go.

The Budget Bureau commissioned an engineering firm to look into the operation of a shipping line maintained by the Panama Canal Co. which is a government-owned and-operated affair under the Department of Defense.

The chairman of the board of the shipping line is an assistant secretary of the Army, its president is a major general of the Army and the sole stockholder is the Secretary of the Army.

The advice to the Bureau of the Budget by its engineering consultant was that the line be discontinued.

And now the comptroller general of the United States reports that, in an effort to refute the evil belief that anything the Army does should not necessarily go on in perpetuity, the Panama Canal Co. has hired two engineering firms to refute the findings of the Budget Bureau.

Dr. George E. Parkinson, pastor of the First Presbyterian Church, Canton, will be guest speaker at Tuesday's meeting of the Rotary Club in the Memorial Building.

POLICE PROBE VANDALISM

LISBON — Police are investigating the breaking of 21 windows at the Lisbon Salesbook Co. off W. Maple St., according to Chief Dalton Pike.

BIKE IS STOLEN

It is a sorry spectacle," reported Humphrey, "for the Franklin Roosevelt New Dealers to see the proud and illustrious name of Junior when he performs as the 'hatchet man' for the Kennedy forces."

Answer Accusation

To Humphrey's accusation that he was engaging in gutter politics, Kennedy said:

"I've never criticized Hubert Humphrey personally. He's a very vigorous and able senator. When this is all over, I hope our relationship will again be a friendly one."

Kennedy has said he will be satisfied if he receives 45 per cent of the vote. Humphrey has expressed confidence that he will win—"everything's going to be all right"—but has refused to estimate what margin he believes he will win by.

DiSalle Defends 'Blunder' Of Party Fight With Miller

Dick Kirpatrick, capital correspondent for The Cincinnati Enquirer, wrote a column three weeks ago suggesting that Gov. Michael V. DiSalle made a political blunder in engaging in a party fight with Ray T. Miller, Cuyahoga County Democratic chairman. DiSalle wrote the following yarn for the Enquirer in rebuttal, in the light of Tuesday's primary.

By GOV. MICHAEL V. DISALLE COLUMBUS, Ohio (AP) — In joking with reporters at a recent press conference, I rather foolishly stated I would discuss a series of recent political columns on May 4.

One reporter said that possibly I was waiting for the answer on May 3.

In response to this challenge, I offered to try to be a political pundit.

This places a rather unfair burden on me because I only have the opportunity of writing one column and most political writers write a number of them, any one of which could be correct.

What has been our strategy in the contest with the Cuyahoga County chairman?

First, we issued a statement which defined the issue. Briefly, the issue is whether a political party should be subordinate to government, or whether government should be subordinate to a political party.

In our American Democratic system political parties perform a vital function.

Through their operations qualified candidates can be recruited for office. Through party conducted campaigns, the citizenry may become educated as to the issues.

The policies of a political party are determined by the delegates

Kennedy's millions—"I can't go running around the state with a little black bag and a checkbook"—and raking Franklin D. Roosevelt Jr.

Blasted War Record

Young FDR over the weekend inflamed Humphrey with references to Humphrey's lack of a war record. He said Humphrey had asked for deferments during World War II to work politically, while Kennedy was serving as a patrol boat skipper in the South Pacific.

Roosevelt's campaigning for Kennedy, especially in the economically distressed areas of southern West Virginia, was a natural. His father's name (former President Roosevelt) still works magic among the labor-conscious miners there.

"It is a sorry spectacle," reported Humphrey, "for the Franklin Roosevelt New Dealers to see the proud and illustrious name of Junior when he performs as the 'hatchet man' for the Kennedy forces."

Locals Take 2 Firsts, Place In 8 Others

By DICK BRAUTIGAM

Good balance and a wealth of depth once again paid off for the Salem High track squad as Coach Karl Zellers' thinclads remained unbeaten in outdoor competition by winning the Mentor Relays Saturday.

Salem won two events and placed in eight others. The Quakers compiled 33 points, one more than runner-up Willoughby North which had 32. Salem was shut out in only two events.

The Quakers won the meet by garnering a fourth place in the final event, the shot put, while Willoughby failed to place. Willoughby led 32-31 going into the final meet.

COMING THROUGH for Salem in the shot was the trio of Ned Chappell, Ron Janovec and Pete Schmauch. The shot, like most of the later events in the meet, was completed in the rain.

Salem beat out 13 teams in capturing the meet. In third place, after Salem and the favorite Willoughby North, came Berea with 26½ points and Rocky River with 24.

Of the other area teams in the meet, Poland recorded 14½ points, good enough for seventh place. Boardman got only one point and the Leetonia Bears were shut out.

Other teams in the meet were Ashtabula, Ashtabula Harbor, Cleveland Brush, Fairport Harbor, Mentor, Painesville Harvey and Wickliffe.

THE EVENTS WHICH Salem won were the sprint medley and the half mile relay.

The sprint medley consisted of 220, 110, 110 and 440-yard dashes. Tim Burchfield ran the 220 for Salem, Ron Janovec and Gary Devan ran the 110-yard legs and Dan Krichbaum took over for the last 440 yards.

When Krichbaum got the baton the Quakers were running third. Salem's record holding 440 man caught the frontrunners and passed them on the stretch.

Devan, Janovec and Burchfield were also members of Salem's winning half mile relay team. The fourth member was sophomore Dave Edling. Their time was 1:35 just off the Mentor Relays record of 1:34.2.

IN ADDITION TO the two firsts the Quakers captured three seconds two thirds one fourth and two fifths an indication of their fine depth.

Salem's pole vault entry of Charlie Horn, Jim Lehwald and Rick Sulea was beaten out by just one inch.

Willoughby's trio of vaulters Fred Anger, Ron Kollister and Ray Rax kept their two-year unbeaten record intact by posting a combined total of 33 ft. 7 in. Anger, the defending state pole vault champion won 12 ft. 4 in.

For Salem Lehwald and Sulea each won 11 ft. 3 in. and Horn cleared 11 ft. even.

LEHWALD, Jim Goodballet and Don Davidson teamed up to give the Quakers second in the high jump. Another second place was picked up in the discus with Davidson, Ned Chappell and Bob Zepernick doing the honors. Zepernick got off the longest discus toss, Salem's three high jumpers all went the same height.

Salem got a third in the medley relay. Randy Strader ran the 800, Jake Evans the 220, Dan Krichbaum the 440 and Jim Solmen the mile.

The same quartet which copped the half mile relay came back to tie for third in the 440-yard relay. With each man running 110 yards, Salem's total time was 46.1. The record is 45.7.

THE QUAKER mile relay team turned in a 3:41.4, good enough for fifth place. Dick Burt, Gordy Scullion, George Goodballet and Dan Krichbaum took part in this event.

Another fifth place was picked up in the broad jump. Charlie Horn went 19 ft. 9½ in., Rick Sulea jumped 18 ft. 9 in. and Don Davidson went 17 ft. 10 in.

Events in which Salem failed to place were the two-mile relay and 480-yard shuttle hurdles relay. On Salem's two-mile relay team were Jim Solmn, Randy Strader, Don Vincent and Don Davidson.

Herb Call, John Hiner, Dave Edling and Jim Gibb ran in the shuttle hurdles. In this event, Berea set the only new record posted on Saturday. Their time was 59.5. The old mark, set in 1955 by Maple Heights, was 1:04.

Two regulars on the Salem track squad were unable to compete in Saturday's meet. Ed Yates, who broad jumps and runs the hurdles is recovering from a sprained ankle. Tom Floyd, a middle distance man and a regular on the mile relay team, was on the ineligible list last week.

STRIKES IT RICH — A once-a-week bowler with a 135 average, Robert F. Hushen, 38, of Irvington, N.J., kisses a ball after winning the \$27,900 first prize in a contest. Hushen, a mortician, hit the biggest strike in kegling history by submitting the fourth line of a jingle dealing with the fun and fitness features of the sport. The amount of the jackpot, \$100 for each pin, was set by a 279 game turned in by Eddie Lubanski.

Pinson's Grand Slam Homer Paces Redlegs to 5-2 Victory

CINCINNATI (AP) — "Don't be surprised if Pinson wins the batting crown this season."

Sound like a publicity blurb about the Cincinnati Reds' young outfielder, Vada Pinson? It was teammate Gus Bell talking.

Pinson came through with a grand slam home run Sunday that propelled Cincinnati's 5-2 victory over St. Louis.

It was the Reds' seventh straight victory, their longest string since 1957.

Bell, the veteran outfielder that Cincinnati officials call "the old reliable," said Pinson can't miss becoming a standout hitter.

He said, "If you look up last year's averages, you'll find that for all-around hitting he compared favorably with Hank Aaron who won the batting crown and was one of the top home run hitters."

"And he's going to get a lot better, especially since he's getting bigger and stronger. He also has the confidence he lacked last spring."

"If Vada has a batting weakness, I don't know what it is."

A shivering band of 5,939 fans braved drizzly weather to watch the Reds win Sunday behind Cal McLish's four-hit pitching.

The Reds went to work on starter Larry Jackson in the second inning. He walked Bill Martin and McLish, and after Eddie Kasko beat out a hit, Pinson walloped his first home run of the season.

Rookie Tony Gonzalez banged a home run in the fifth inning, sealing Cincinnati scoring.

McLish, still new to many National League batters, gave up only one damaging hit — Joe Cunningham's two-run double in the seventh. It came after Leon Wagner and pinch hitter Stan Musial walked.

Bill Henry worked the last inning after McLish said his right shoulder was stiff.

The Reds rest today before moving on to Chicago for a three-game series, starting Tuesday.

Ohio State Favored To Win Golf Tourney

COLUMBUS, Ohio (AP) — Ohio State is heavily favored to win the Ohio Intercollegiate Golf Tournament today on the Buckeye greens.

And Jackie Nicklaus of Columbus, one of the hottest amateur golfers in America, is an odds-on favorite to cop the individual title in the 36-hole medal play event.

Nicklaus will represent Ohio State.

Twenty-one colleges and universities have entered teams in the tournament. Each team will have six players on the Scarlet course with the four low scores counting.

Starting at 6 a.m., all 36 holes were to be played today.

Ohio All-Stars Lose Second

Defeated 72-68 by Pennsylvania Team

The Western Pennsylvania All-Stars throttled Northeastern Ohio's scoring aces, Dave Hunter and John Namciu, and walked off with a 72-68 victory Saturday night before approximately 500 fans in the Warren Harding gym.

The win gave the Keystoneers a sweep of the two game series. Pennsylvania won the first game at Farrell earlier this month, 91-80. Ohio swept the series last year.

Saturday's affair was close all the way. The tilt was deadlocked 33-31 at intermission and 50-50 after three periods.

Cal Sheffield of New Brighton paced the winners with 17 markers. However, the top scorer in the game was Al Payne of Cleveland Cathedral Latin who had 21 points for the losers.

Payne was picked as the outstanding Ohio player in the series and presented with a trophy.

Hunter and Namciu, who had paced the Ohio squad in its losing effort in the first game, were held to just one field goal apiece in Saturday's game. Salem's Hunter wound up with 8 points while Namciu of Canton Timken notched but six.

Pennsylvania Stars—72
Sheffield 3-11; Smith 1-4-6; Mastrian 1-4-6; Somerset 3-4-10; Allen 1-5-7; Ferguson 5-2-12; Byler 1-4-6; Crosten 1-2-4; Figua 1-0-2; Kudelko 10-2.

Ohio All-Stars
Hunter 1-6-8; Payne 9-3-21; Lane 5-11-11; Namciu 1-4-6; Milasovich 3-3-9; Osborne 1-1-3; Moore 1-1-3; Leonard 2-0-4; Berecek 0-3-3.

Tribe Rookie Hurlers Face Stern Test

BOSTON (AP)—In the next nine days the Cleveland Indians' youthful pitching staff faces a stern test.

After today's game against the Boston Red Sox, the Tribe goes to New York for three games, then returns home for a four-game set with the Chicago White Sox, followed by two more games with the Yankees.

In that period Manager Joe Gordon will be thinking about which pitchers to cut from the 28-player squad.

"We've got to evaluate our pitching," Gordon said. "We have to cut down in about 10 days, and we have to decide who to keep and who to let go."

Of the 12 pitchers on the staff, probably two will be sent out by May 18.

Four are sure to stay — Gary Bell, Wynn Hawkins, Barry Latman and Jim Perry.

Gordon had expected to get a look at Bob Tiefenauer Sunday, but the game scheduled with Boston was rained out. The manager wasn't disappointed, however. "We needed a day off," he said. "We didn't have one for 10 days and won't get another until next week unless it should rain again."

Gordon said he had a hunch Tiefenauer, a relief specialist most of his career, will be a good starting pitcher. "He has to warm up a little longer because he still isn't real strong. When he starts, he can get good and warm."

The 30-year-old knuckleballer was out last year with a sore arm and has not been effective so far in relief.

Pitching plans for the series with the Yankees are indefinite. Gary Bell is the only certain starter. Other possibilities are Latman, Perry and Hawkins, if his injured shoulder is not too sore.

No. 13 --- All Parts

By JIMMY DEMARET

A good basis for describing the requirements of the forward press is: Use all the parts of the body which will play distinct and continuing part throughout the swing.

Then, as one, move them toward the hole only enough to get them moving in balance, ready for the beginning of the backswing.

The swing is going to involve the knees, hips, shoulders, arms and hands, so each is set in forward motion enough for the player to feel the movement.

As I suggest in my Golf-To-Music Lessons, album, study the starts of your friend's swing. Invariably, the stiff tense starts will be from a motionless position. Swings which seem to be flowing from the instant the club-head leaves the ball will be graceful products of a swing which "got the downbeat" from the forward press.

Forward press for short iron.

Practice the forward press.

As long as the forward press sets you in motion in good balance, you will know that it is going to improve your swing.

McCormick Hurls Giants To 13-1 Victory Over Pirates

Former bonus baby Mike McCormick, youngest of the Giants, is the new ace of San Francisco's pitching staff.

The 21-year-old unbeaten southpaw Sunday pitched the Giants into undisputed first place with a 13-1 victory over the Pittsburgh Pirates.

The Pasadena youngster, who now makes his home in San Mateo, Calif., tamed the Pirates with six hits for his fourth victory.

The triumph gave the Giants a sweep of the three-game series with Pittsburgh and boosted them to a full game lead over the Pirates.

In other National League games, Cincinnati won its seventh straight with a 5-2 decision over the St. Louis Cardinals and Philadelphia defeated Los Angeles 4-2. Rain forced postponement of the Milwaukee-Chicago game.

Rain also wiped out all but the

Chicago-New York game in the American League. The White Sox won 8-3 in 10 innings, wrestling first place from the Yankees.

This is only McCormick's fourth full season in the majors. Mike won 12 and lost 16 last year. In three of his defeats, his teammates failed to get him a run.

Cal McLish won his second game and outfielder Vada Pinson made his first homer of the year a grand slammer as Cincinnati swept the three-game series with the Cards. St. Louis now has lost all eight of its road games. Larry Jackson lost his fourth against one victory.

Rookie catcher Jim Coker hit a two-on homer to climax a four-run sixth inning and give the Phillies the rubber of the three-game set with the Dodgers. Jack Meyer, with the help of Dick Farrell, registered his second victory. Ed Rakow was the loser.

Hartack Almost Blew Chance To Ride Winner of Derby

LOUISVILLE, Ky (AP) — Bill Hartack, horse racing's No. 1 controversial figure, almost blew his chance to ride Venetian Way to victory in the 96th Kentucky Derby.

Vic Sovinski, who trains Venetian Way for Isaac Blumberg of Chicago, revealed today that as late as last Friday he was toying with the idea of replacing Hartack.

"I knew I could get Eddie Arcaro," said the 52-year-old ex-baker from Kankakee, Ill., as he talked of Venetian's 3 length triumph over Bally Ache in last Saturday's \$158,950 classic for 3-year-olds at Churchill Downs and the renewal of their rivalry in the \$100,000 Added Preakness at Pimlico May 21.

"But I finally decided to stick with Hartack although I'll admit, that I, together with many others, don't approve of his outspoken attitude. And I am glad I did. He obeyed my instructions to the letter. He'll be up on Venetian Way again in the Preakness."

Hartack irked Sovinski after a 7-furlong prep race April 30 in which Bally Ache beat Venetian Way by more than three lengths.

"I told him to give Venetian Way a good workout for an additional quarter-mile," said Sovinski. "He did but was standing up in the saddle all the way. When I want a horse to get a tough workout, I want the boy to sit in the saddle and I told Hartack so."

Sovinski said his only instruction to Hartack for the derby was to lay back in the third or fourth going down the back stretch and then to make his move.

How well this worked is shown by the results. Venetian Way moved into second place with a little more than a half-mile to go, caught the pace-setting Bally Ache and Bob Ussery rounding the last big turn, went ahead of Leonard Fruchtmann's hard-hitting colt nearing the quarter-pole and then widened his margin in the

long drive for the finish line. "I rode him like somebody was on my tail all the way," said Hartack.

Although Bally Ache was no match for Venetian Way as he kept intact his record of being in the money in all of his 24 starts except the first, he easily defeated Victoria Park for second money of \$25,000.

The victory was worth \$114,850 in cash alone and boosted Venetian Way's total bankroll for 15 races to \$280,127.

Venetian Way and Bally Ache leave Tuesday for Baltimore and the Preakness. Victoria Park, Tompion and ninth place Divine Comedy also are expected to start in the second jewel of racing's triple crown.

Wiffi Smith Wins Women's Tournament

SPARTANBURG, N. C. (AP)—"I think I'll take this course home and put it in my back yard."

That was what Wiffi Smith exultantly remarked after she won the Peach Blossom Women's Golf Tournament here Saturday for the third straight time.

Wiffi, of St. Clair, Mich., wound up the 54-hole event with 212, one stroke higher than her tournament record here last year. She won \$997.50.

Beverly Hanson of Palm Desert, Calif., was second with 214. Her share was \$869.50.

Yanks Bumped Out of 1st Place

Beaten 8-3 In 10 Innings by Chisox

Gerry Staley not only is making a monkey out of the American League hitters, he's making the experts eat humble pie. He's also the reason the Chicago White Sox are in first place today.

Staley pitched in 67 games last year. His earned run average was 2.25. The experts acknowledged he was the best relief pitcher in the league in 1959 but this was another year. After all, he was approaching 40. He couldn't possibly be as good.

Surprise! Staley is better. Manager Al Lopez has called on his aged right arm eight times in 18 games and the opposition still has to score a run off him in 17 2-3 innings.

Staley gave a demonstration of his excellence to 19,505 Yankee stadium spectators Sunday as the White Sox wrestled first place from the New York Yankees in 10 innings, 8-3.

It was the only game played in the American League. All the others were postponed because of rain. In the National League San Francisco beat Pittsburgh 13-1. Philadelphia defeated Los Angeles 4-2 and Cincinnati whipped St. Louis 5-2. The Milwaukee-Chicago game was postponed because of rain.

Members of the Bluebell Railway Preservation society clear tracks.

LOCAL MOTIVE

LOTS OF COMMUTERS occasionally gripe about the service, but the riders in Sheffield Park, England, did something about it—they bought out a section of the line. Enraged when the railroad shut down in 1958, the local residents formed the Bluebell Railway Preservation society, 600 members strong (gripping strictly taboo). Petitioning the British Transport ministry, the citizens succeeded in renting a 4½-mile stretch of track between Sheffield Park and Horsted Keynes in Sussex countryside. The seven-thousand-dollar annual rental fee is raised by subscription. Currently, the citizens are "working on their railroad" to get it ready for opening day. They're painting the station and repairing signals and switches. On opening day, Bluebell's old steam locomotive will go purring down the line, providing hourly commuter service each way on Saturdays and Sundays.

Her pick is doing the heavy work.

The station comes in for a cleaning and painting project.

Six stories from "The Jazz Age" (including "The Jelly Bean," "The Camel's Back," "The Curious Case of Benjamin Button," "O Rusee Witch," "Tarquin of Cheap-side," and "The Lees of Happiness"). The other stories are taken from "All the Sad Young Men," published three years later by a more mature Fitzgerald.

"Clea," by Lawrence Durrell. The dramatic film novel in the tetralogy about modern Alexandria and love of every kind - pure sensual, uplifting, dissipated. Here the main characters of "Justine," "Balthazar," and "Mountolive," see themselves and their lives in a true light, and find peace in their own ways.

"False Scent" by Ngalo Marsh. Many people thought Mary Bellamy, the stage star, was a pest; then someone did something about it and Mary died of insecticide poisoning.

"A Singular Passion" by Joan O'Donovan. A driving bitterly tragic story of a fiftyish spinster, Edith, who suddenly finds love, becomes wildly enamored of her Irishman, and at last is driven to frantic and desperate measures to hold him.

"The Golden Cage" by Tereska Torres. The story centers around three families and several assorted characters who find themselves trapped in the Portuguese resort town of Figuera da Fox. The time is 1940 when Hitler's armies were marching through Europe, and when thousands of people for various and urgent reasons were trying desperately to escape from the conflict.

"Short Term" by Jay Rich and Kennedy. Kenneth Preston, a well-bred Bostonian, becomes trapped in the complex world of high finance on the Stock Exchange, and while struggling to gain security, discovers love with the beautiful Laurie.

"The Divided Lady" by Bruce Marshall. Middle-aged James Childers travels to Rome in behalf of a woman whose film executive has been fleeing. But once there he finds himself ensnared by feminine charms.

"The Surveyor" by Truman Nelson. A picture in fiction form of John Brown, not only the man who hated slavery but the fire-and-brimstone preacher who fought with bloody violence to make Kansas a Free State, with so ruthless a fury that even those who shared his beliefs condemned his terrorist raids.

"A Distant Trumpet" by Paul Horgan. When Matt Hazard was seven years old, President Lincoln gave him a soldier's cap and a lifelong dream. In 1881 Lt. Matt Hazard took Laura, his bride, to Fort Delivery in Arizona where he made a reputation as a good officer, won the Congressional Medal - and refused it and resigned his commission in protest against injustice to his Apache Indian scouts.

"Non-Fiction" "Belafonte: An Unauthorized Biography" by Arnold Shaw. From a childhood of poverty, Belafonte faced bigotry to reach his present position as a top entertainer known throughout the world. Numerous anecdotes and comments from friends add to the warmth of this biography which is far from the usual "rags to riches" type of story.

"The Evergreens" by James H.

Beale, Full information of both the narrow-leaved (yew, junipers, pines, etc.) and the broad-leaved evergreens (azaleas, rhododendrons, hollies, etc.) - their preferences in habitat and soil, their hardiness, planting tie, proper use in landscaping.

Toss of Coin May Decide Split of Timken Paintings

WASHINGTON (AP) — If officials of two art museums can't agree on how to divide 89 paintings left to the museums by the late Mr. Lillian Guyer Timken, a coin will be tossed to settle the issue.

Mrs. Timken was the widow of William Robert Timken, co-founder of the Timken Roller Bearing Co., whose headquarters are in Canton, Ohio.

The paintings were found in her 24-room apartment in New York after her death last October.

But her will made no mention of how the paintings should be divided between the National Gallery of Art in Washington and the Metropolitan Museum of Art in New York.

John Walker, director of the National Gallery, says he and James Rorimer, director of the Metropolitan, have decided on the coin-tossing routine to divide the paintings if they can't agree on who is to get what. The proceedings may take place at the Metropolitan next week, Walker said.

Here's how it will work: The paintings have been divided into a series of two groups. For instance, one series may contain eight paintings, divided into two groups of four each.

In each series, Walker and Rorimer will announce at the same time which group they prefer. If each wants a different group, he gets what he wants. But if they both want the same group, a coin will be tossed and the winner gets his choice.

In one series, for example, these are the alternatives. Group One offers "Christ at the Well" by Rembrandt, "Madonna" by Van Dyck, a portrait by Gainsborough, and "Large Fete" by Pater.

Group two offers "Love Letter" by Boucher, "Happy Family" by Fragonard, a portrait by Moroni, and "Deluge" by Turner.

The Timken collection also includes paintings by Titian, Veronese, Reynolds, Tiepolo, Raeburn, Watteau and other masters.

Bucher to Pick 3 For County Squad

Lisbon High Coach Bud Bucher will have an opportunity to pick three alternates to add to the 25-man Columbiana County grid squad which is scheduled to meet the Beaver Valley, Pa., All-Stars at East Liverpool's Patterson Field on Aug. 6.

Bucher was named recently by the Columbiana County Coach's Association as head coach of the Ohioans after Earle Bruce, the original selection, resigned his post at Salem High to accept the head coaching job at Sandusky High.

Bucher had not made the three selections allowed to the head coach for the All-Star team so the choice is now up to Bucher. The county coaches selected the remainder of 25-man squad last winter. Only last year's seniors are eligible.

Replacements will probably have to be found for three members of the Columbiana County team who were also picked for the North-South game this summer at Canton. The players, Cecil Kowalski of East Palestine, Ned Chappell of Salem and Bob Mackall of East Liverpool, will not be able to participate in both games because of conflicting dates.

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: Your advice to the man who signed himself "Sadder but Wiser" was an excellent example of the unfairness of the so-called "fair sex."

When a man jilts a woman he is a base hound, a despicable cad and a dirty bum besides. In some states, courts consider her feelings to be so delicate as to be worth several thousands of dollars in balm suits.

On the other hand, if a female tramp (no editing necessary) jilts a man after he spends "X" number of hours and dollars wooing the phony broad, it's considered his tough luck and a big fat joke as well. No sympathy for the man. People die laughing and console him with such lines as "Oh, brother, you sure got taken for a ride!"

Of course you are so anti-male, Ann Landers, if I see this letter in print I'll eat my new straw hat. — MERE MALE.

Dear Mere: Start nibblin', Buster. And may I suggest you add a bit of sugar and cream? Tell yourself it's shredded wheat.

door leave first—male or female. The man who thinks he's being courteous by letting the women in the rear leave first succeeds only in blocking the way.

2. A man always removes his glove. A woman never.

3. The lady follows the usher. If there's no usher the gentleman leads the way.

4. The man always alights first

from bus or street car to assist the lady.

5. The woman tells her escort what she would like to eat and he orders for both.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Salem News, enclosing a stamped, self-addressed envelope.

The Doctor Says

By HAROLD THOMAS HYMAN, M.D.

Fouled Body Defenses Cause Allergies

Dr. H. T. Hyman

Allergy has become a household word. The whole family has "gotten into the act," as the saying goes.

The baby "breaks out" when fed cow's milk. Junior usually is covered with poison ivy. His sister gets an eruption from some cosmetic preparation.

Mom has her strawberry rash and asthmatic attacks that occur almost every time she catches even the mildest cold.

Pop almost goes out of his mind from "itching hives" following an injection of antitetanus serum.

Let me try to tell you something about this strange affliction that is due to causes as innocent as cow's milk.

THOSE PHYSICIANS who christened the allergies recognized that these strange goings on had something to do with gremlins that somehow got into our system of body defense.

In a way, the victim of an allergy is somewhat in the position of a bank whose guard, hired to defend his employers against berserk and begins firing on depositors.

Ill give you more specific examples in another column.

Instead of our security guards acting to preserve our best interests, they turn against us. They expend their energy (ergos) in a manner that is other (allos) than what is expected of them.

These allos ergos (allergies) are somewhat like the kickback of a rifle or an explosion in a cooking stove.

THE CHRISTENING physicians also recognized that, unlike the circumstances that prevail in the examples I just gave, the allergies didn't affect everybody. They hit only certain persons.

These persons, with their allergic hypersensitivities, in this sense are like their worst enemies. Unlike the infected patient whose troubles are due to tissue invasion by enemy bacteria, the hypersensitive individual manufactures his own poison when something goes sour with his defense mechanism.

In a way, the victim of an allergy is somewhat in the position of a bank whose guard, hired to defend his employers against berserk and begins firing on depositors.

Ill give you more specific examples in another column.
